National deep-dive: Translating the Net Zero Industry Act into national action

Paolo Rocco Viscontini, ITALIA SOLARE President
SolarPower Summit, March 26th 2025

Resilience Policy in Italy

1. UPSTREAM

«Development Contracts»

2. DOWNSTREAM

«TRANSIZIONE 5.0» DECREE

Supporting the installation of «Made in EU» modules in C&I applications

@Marengo Group

1. Development contracts

TEMPORARY FRAMEWORK 2.8

- **Only grants**
- Specific for strategic investments aimed at the **net-zero goal**
- Applications in a **limited period of time**
- Aid intensity: **from 15% to 55%** according to company size and location
- **No notification to EU** for investments > 110 M€

GENERAL BLOCK EXEMPTION REGULATION

- **Grants and soft loans**, with possibility to mix
- **All manufacturing activities**
- **Always** possible to file applications
- Aid intensity: grants **from 10% to 60%** according to company size and location, reducing with growing loans
- **Notification to EU** for investments > 110 M€

2. Transizione 5.0 Decree

	Energy consumption reduction			
	by production unit	3%-6%	6-10%	>10%
	or			
	by process	5-10%	10-15%	>15%
	Investment	Tax Credit		
Tax Credit with modules $\eta_{\text{mod}} \geq 21,5\%$ made in EU (no EU cells)	< 10 M€	45.5%	52%	58.5%
	10 - 50 M€	6,5%	13%	19.5%
Tax Credit with modules and cells ($\eta_{\text{cell}} \geq 23,5\%$) made in EU	< 10 M€	49%	56%	63%
	10 - 50 M€	7%	14%	21%
Tax Credit with modules and cells ($\eta_{\text{cell}} \geq 24\%$) made in EU	< 10 M€	52.5%	60%	67.5%
	10 - 50 M€	7.5%	15%	22.5%

PHOTOVOLTAIC + BESS
are eligible for
TAX CREDIT

only together with and
after energy efficiency
interventions.

Available budget: 6,3 bn€

Max end of works:
Dec. 31st 2025

**ITALIA[®]
SOLARE**

Il fotovoltaico è di tutti

**Italia Solare is the only
association in Italy
entirely dedicated to photovoltaics**

INDEPENDENCE • EXPERTISE • COMMUNITY • EXCLUSIVITY

Book an appointment to get to know us better
and discover all the exclusive advantages of be
a member of the Italian photovoltaic community.

SOLARPOWER SUMMIT 2025

NINA HOJNIK

Director,
Slovenian Photovoltaic Association

NZIA implementation- Slovenia

- ✓ NZIA transposition in progress 😊
- ✓ Non-financial criteria for support schemes and public funding as an option
- ✓ Enabling OPEX subsidies (not spec. for producers)
- ❖ Technology- neutral approach (support to nuclear energy)
- ❖ SOLAR CHARTER update
 - No specific direct funds- endeavours in raising awareness on existing (EU) and national funding options
 - Application for CAPEX funding by solar panel producer (no results yet) – not based on the Charter

Funding Solar and Storage

Slovenia is leveraging **three interconnected funding mechanisms** to accelerate its solar energy and storage rollout:

- EU **Recovery and Resilience Plan (RRP)**
- ⚡ **REPowerEU Chapter (RRP extension)**
- SOS **Temporary Crisis and Transition Framework (TCTF)** – State aid scheme

What is good:

- Digitilized
- Many opportunities for solar+storage funding (higher subsidies with storage)

What we're missing:

- specific storage funding (limited for residential with existing PV)
- Transparency in planned funding + system of acquiring the funds
- Complexity in some cases
